Complex Aortic

Moderator (Vorsitz): Sébastien Déglise (Lausanne), Alexander Zimmermann (Zürich)

-
- 1 Long-term outcome of patients treated by TEVAR for type B aortic dissection or intramural hematoma depending on a healthy vs non-healthy proximal landing zone
B. Reutersberg, L. Meuli, A. Menges, K. Stoklasa, A. Zimmermann, P. Düppers, Presenter: B. Reutersberg (Zurich)
-
- 2 Preliminary experience with the new off-the-shelf 4 inner branches E-nside for the treatment of complex aortic disease.
L. Ettorre, J. Longchamp, A. Longchamp, R. Trunfio, R. D'Amico, L. Wuarin, E. Côté, C. Deslarzes-Dubuis, S. Deglise, Presenter: L. Ettorre (Lausanne)
-
- 3 First single center experience with inner branched endovascular aortic repair
K. Pavotbawan, M. Furrer, S. Hofer, Presenter: K. Pavotbawan (Chur)
-
- 4 Branched and fenestrated endografts are a valid option for the treatment of complex aortic aneurysmal disease: a 10-years experience.
C. Deslarzes-Dubuis¹, J. Longchamp¹, A. Longchamp¹, R. D'Amico¹, L. Ettorre¹, L. Wuarin¹, R. Trunfio^{1,2}, E. Côté¹, S. Deglise¹, Presenter: C. Deslarzes-Dubuis¹ (¹Lausanne, ²Lugano)
-
- 5 The Lusoria aberrant right subclavian artery: a rare disease with several options of treatment.
E. Côté, C. Deslarzes-Dubuis, J. Longchamp, A. Longchamp, L. Wuarin, R. D'Amico, L. Ettorre, J. Brusa, S. Deglise, Presenter: E. Côté (Lausanne)
-
- 6 Case report : Endovascular treatment with fenestration and a custom-made stent graft of symptomatic true-lumen collapse after open surgery for aortic dissection type A
J. Cheseaux, H. L. Chan, J. Schmidli, V. Makaloski, Presenter: J. Cheseaux (Bern)
-
- 7 Management of a right aortic arch dissection with aberrant left subclavian artery with placement of an AMDS hybrid stent: A case report
A. Roesti¹, A. Nowacka¹, M. Sabour², J. Namasivayam², D. Delay², Presenter: A. Roesti¹ (¹Lausanne, ²Sion)
-
- 8 Acute occlusion of all reno-visceral branches after branched endovascular aortic repair
D. Haligür, C. Kohler, S. Weiss, V. Makaloski, J. Schmidli, R. Bühlmann, Presenter: D. Haligür (Bern)
-
- 9 Endovascular repair of an ascending aortic pseudoaneurysm. A case report.
A. Longchamp, E. Coté, M. Kirsch, S. Déglise, Presenter: A. Longchamp (Lausanne)
-

Die Vortragszeiten betragen für die Abstracts Nr. 1-5 6 Minuten gefolgt von 4 Minuten Diskussion, für die Abstracts Nr. 6-9 4 Minuten gefolgt von 4 Minuten Diskussion.
